## 9312 <br> 93 L 12 <br> 93 S 12 <br> 8-INPUT MULTIPLEXER

DESCRIPTION - The '12 is a monolithic, high speed, 8-input digital multiplexer circuit. It provides, in one package, the ability to select one bit of data from up to eight sources. The '12 can be used as a universal function generator to generate any logic function of four variables. Both assertion and

| E | Enable Input (Active LOW) | 1.0/1.0 | 1.25/1.25 | 0.5/0.25 |
| 10-17 | Multiplexer Inputs | 1.0/1.0 | 1.25/1.25 | 0.5/0.25 |
| Z | Multiplexer Output | 20/10 | 25/12.5 | $\begin{array}{r} 10 / 5.0 \\ \text { (3.0) } \end{array}$ |
| $\overline{\mathbf{z}}$ | Complementary Multiplexer Output | 20/10 | 25/12.5 | $\begin{array}{r} 10 / 5.0 \\ (3.0) \end{array}$ |

FUNCTIONAL DESCRIPTION - The '12 is a logical implementation of a single pole, eight position switch with the switch position controlled by the state of three Select inputs, $S_{0}, S_{1}, S_{2}$. Both assertion and negation outputs are provided. The Enable input ( $E$ ) is active LOW. When it is not activated the negation output is HIGH and the assertion output is LOW, regardless of all other inputs. The logic function provided at the output is:

$$
\begin{gathered}
Z=E \bullet\left(I_{0} \bullet \bar{S}_{0} \bullet \bar{S}_{1} \bullet \bar{S}_{2}+I_{1} \bullet S_{0} \bullet \bar{S}_{1} \bullet \bar{S}_{2}+I_{2} \bullet \bar{S}_{0} \bullet S_{1} \bullet \bar{S}_{2}+I_{3} \bullet S_{0} \bullet S_{1} \bullet \bar{S}_{2}+I_{4} \bullet \bar{S}_{0} \bullet \bar{S}_{1} \bullet S_{2}+I_{5}\right. \\
\left.\bullet S_{0} \bullet \bar{S}_{1} \bullet S_{2}+I_{6} \bullet \bar{S}_{0} \bullet S_{1} \bullet S_{2}+I_{7} \bullet S_{0} \bullet S_{1} \bullet S_{2}\right) .
\end{gathered}
$$

The ' 12 provides the ability, in one package, to select from eight sources of data or control information. By proper manipulation of the inputs, the '12 can provide any logic function of four variables and its negation. Thus any number of random logic elements used to generate unusual truth tables can be replaced by one ' 12.
